

Leave xm alone. They provide a valuable service that i pay for. There traffic and weather channels are a helpful tool in my job as a truck driver. I know if there is a problem on the road well in advance of my arrival in a pactiluar city that i will be traveling through. With that info.I can adjust my route through or around the city. Local traffic channels cannot give me that info far enough in adcanve to adjust my route.

Thank you and leave xm alone, there a bigger problems in the u.s. that you can waste your time on.
